

## CHAIR

Thomas Gruenberger, Rudolfstiftung Hospital Vienna, Vienna, AT

## CO-CHAIRS

Serge Evrard, Institut Bergonié, Bordeaux, FR

Guido Torzilli, University of Milan/Humanitas Research Hospital, Milan, IT

## FACULTY

Mathieu D'Hondt, AZ Groeninge Hospital, Kortrijk, BE

Stephen Fenwick, University Hospital Aintree NHS Trust, Liverpool, UK

Birgit Gruenberger, LK Wiener Neustadt, Vienna, AT

Philipp Jonas, Rudolfstiftung Hospital Vienna, Vienna, AT

Peter Krafft, Rudolfstiftung Hospital Vienna, Vienna, AT

Friedrich Laengle, Wr Neustadt Hospital, Vienna, AT

Zinka Redzic, Rudolfstiftung Hospital, Vienna, AT

Patrick Starlinger, Medical University of Vienna, Vienna, AT

Stefan Stättner, Medical University Innsbruck, Innsbruck, AT

Judith Stift, Medical University of Vienna, Vienna, AT

## MONDAY 4th SEPTEMBER

(each session will incorporate live transmission of liver procedures)

**08.30 – 12.00**

### Defining the right patient:

- Radiologic requirements, clinical parameters, blood result history, patients' needs  
S. Evrard
- Radiologic differentiation  
Z. Redzic
- Resectability/The case manager  
T. Gruenberger
- Liver function  
P. Jonas

**10.00 – 10.30**

**Coffee break**

- PeriOp anaesthesiologic and ICU care  
P. Krafft
- Managing synchronous mCRC  
F. Laengle
- Controversies and discussions: liver function preOp; prevention of liver failure  
S. Stättner

**12.00 – 13.00**

**Lunch**

**13.00 -17.30**

**Essentials for HB surgery**

- Access, liver mobilisation, vascular anatomy  
M. D'Hondt
- Intraoperative ultrasound, inflow, outflow control  
G. Torzilli
- Resection techniques and devices  
S. Evrard
- Anatomical vs non-anatomical resection, the margin  
F. Laengle
- Liver trauma, bile duct injury  
S. Fenwick
- Video-based discussions  
T. Gruenberger

**TUESDAY 5TH SEPTEMBER**

**(each session will incorporate live transmission of liver procedures)**

**08.30 -12.30**

**Essentials for HB surgery (continuation)**

- Laparoscopic indications and options  
M. D'Hondt
- Ablation technique: RFA, microwave, electroporation  
S. Stättner
- Postoperative complications, management; oncological consequences  
P. Starlinger
- Discussion: ablation vs resection, liver sparing, multiple stages  
G. Torzilli

**12.30 – 13.30**

**Lunch**

**13.30 -16.00**

**MDT approach and its necessities**

- Defining multidisciplinary care  
B. Gruenberger
- HB science  
P. Starlinger
- Importance of pathologic response  
J. Stift
- Requirements to specialise in HB surgery  
S. Fenwick
