

# EYSAC

**ESSO Young Surgeons and Alumni Club**

**Proudly announces  
CORSiCA Study**

# KEY FACTS ABOUT THE CORSiCA

## 1. WHAT is CORSiCA?

*Complete pathologic response rectal cancers EYSAC.1 Study* – full title – is a large European Study aimed to investigate ypT0 rectal cancers with complete pathologic response in relation to their nodal *status*

## 2. WHO is the PI?

**Dr Laura Lorenzon MD PhD** from Sapienza University of Rome EYSAC Steering Committee Research Delegate

**ESSO is Project Partner** with Prof Geerard Beets - ESSO Education Committee (Netherlands Cancer Institute, Amsterdam); Prof Paolo Delrio – President of the Italian Society of Surgical Oncology (National Cancer Institute “Pascale Foundation”, Naples) and Dr Karol Polom EYSAC Chair

# KEY FACTS/2

## 3. STUDY AIMS

- a) To create a large EU database of ypT0 rectal cancers from ESSO-EYSAC affiliated centres
- b) To investigate the clinical, pathological, radiological (and eventually) molecular features of ypT0N0 vs ypT0N+ rectal cancers

## 4. HOW?

The study has a retrospective (last 5 years) and a prospective (3 years + 2 years of follow-up) line of research

Each center will participate with a junior and a senior member

# KEY FACTS/3

## 5. DO you want to know more?

A detailed presentation is available!

## 6. Any questions?
