

ENVIRONMENTAL POLICY

QP1007 Issue - 10

8th January 2016

1 of 1

As a responsible organisation Henrob Limited understands that it will have an impact on the environment. Therefore our aim is to continually reduce the environmental impact of our operation per unit output of rivets.

In this respect our policy is:

- To assess how our activities interact with the environment, identify those which are significant and establish objectives and targets to drive continuous improvement.
- To encourage our employees to have a responsible approach to the environment, recycling materials and saving energy wherever possible
- Prevention of pollution through proper and responsible control of our operations and activities
- To comply with applicable legal requirements
- To review our objectives and targets through regular management review
- To expect similar environmental standards from all suppliers and contractors

This Policy statement will be reviewed annually.

Lennart Remneback
General Manager, Henrob Limited
