Clwyd Alyn and Tŷ Glas are charitable Registered Societies

We hope you are happy with the installation of a new bathroom at your home by the association.

Your new bathroom:

Clwyd Alyn Housing Association are committed to the continued upkeep and maintenance of our housing stock, and as a result your home has recently received a bathroom replacement as part of our Improvement Programme.

This leaflet is intended to give you some guidance on how to care for and maintain your new bathroom.

How to care for your bathroom:

Toilet: Use toilet bowl cleaners on the inside of the bowl only. Avoid in-tank cleaners as they can damage the flush valve or other working parts. Wipe any cleaner solutions from plastic surfaces immediately.

Showerhead: It is important to keep your showerhead clean as it is a perfect breeding ground for bacteria such as legionella which can cause legionnaires disease. Cleaning it regularly with detergent will help to prevent this. If your shower is used less than once a week you will need to run it to flush the system and prevent the build up of bacteria.

Every 4-6 months it is advisable to carry out a deep clean of your showerhead, do this by disassembling the shower head and placing in a bucket with descaler. Rinse with fresh water and then leave to soak in disinfectant. Finish off by rinsing with fresh water and reassembling.

Flooring: Your new flooring is Polysafe Vinyl which is designed to be hard wearing and slip resistant making your bathroom safer. While your flooring is slip resistant it does not eliminate all risk of slips, care should be taken to mop up any spills and splashes as soon as they happen to prevent accidents.

Avoid using bleaches and harsh cleaners on your flooring as this can cause discolouration and fading over time. Instead use warm water and mild detergent regularly to keep your flooring clean and looking new. Vacuum or sweep the area regularly to avoid build up of dirt and grime which can cause damage to the flooring. **Do not use** abrasive cleaners such as scouring powders, oven cleaners, bleaches or wire wool pads.
